## CRYSTALS FROM SWAROVSKI®

Decorative Auto Bling® Chrome Plated Brass Medallion Frames,  
Trailer Hitch Covers, & 3D Front Plates

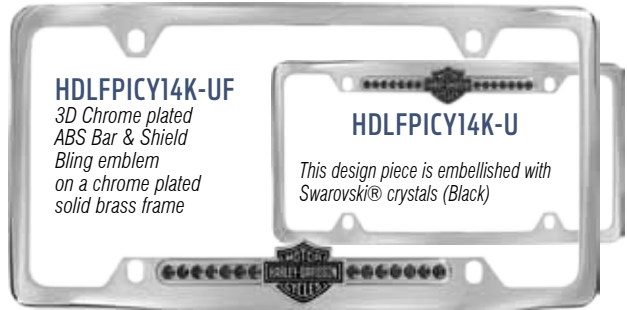

Swarovski® crystals is the premium brand for the finest crystal elements manufactured by Swarovski. Since 1895, these crystals have provided a fabulous palette of inspiration for designers in the worlds of fashion, jewelry, accessories, interior design and the lighting industry. The brand stands out by virtue of its creative and strong emotional appearance - it represents the rich cultural tradition of central Europe, and the ethics and technological innovation that are Swarovski hallmarks. Baron, in 2010 proud to be endorsed Swarovski Branded Partner Team.

# U SEMI-UNIVERSAL FIT FRAMES

4 SCREW CAPS included in all License Frame packaging

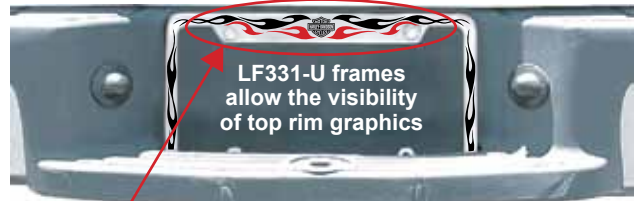

Frame Size: 12.25"W x 6.25"H

## 'U' SEMI-UNIVERSAL FRAME SERIES CHROME PLATED U-SERIES SEMI-UNIVERSAL FRAMES

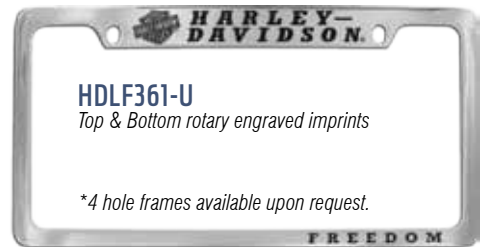

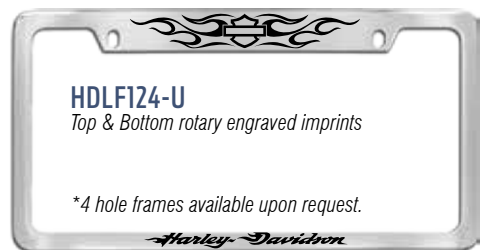

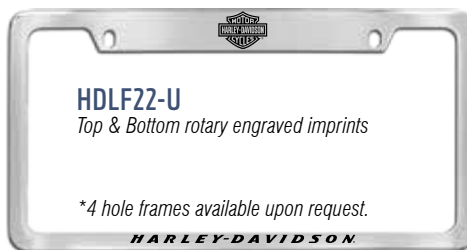

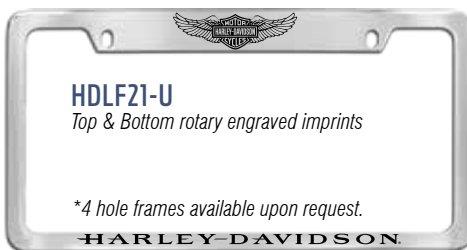

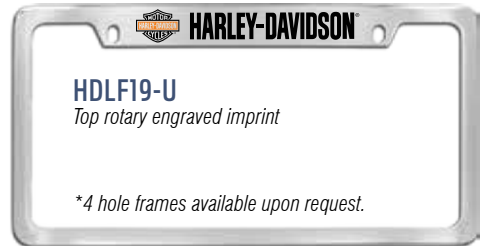

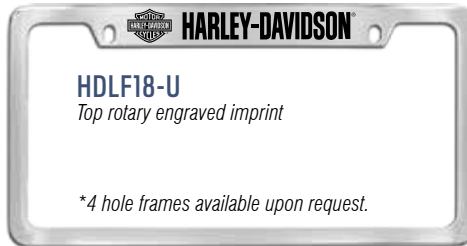

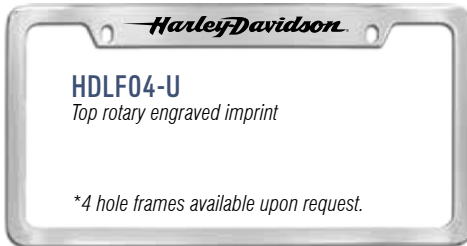

The LF-U/UF Semi-Universal frame is designed to accommodate all 50 states' Top/Bottom Decal readability and nearly all states, fulfilling 49 states' additional requirement to not obstruct states' name readability, with the exception of Texas in 2003 that mandates total visibility requiring absolutely no partial plate text obstruction, differing from the other 49 states more liberal readable partial obstruction allowance interpretation. This based on Baron's DMV state plate research compiled data to our best knowledge, updated June 2006, but not warranted to be 100% accurate as DMV plates design and policies periodically change and States Legislation regulations may also change requiring calling DMV for information, monitoring DMV websites, and checking Highway Patrols' DMV plate readability regulations interpretations for evolving updated information. Baron will continually post any changes on our web site: [www.baronlfi.com](http://www.baronlfi.com). Also, LF-U overcomes license frame readability difficulties on all vehicles & trucks built with elevated bumpers obstructing all or portions of the frame's bottom rim, as above photos illustrate, affecting all GM, some Ford, & some Toyota trucks. Frame dimensions: 12.25" W x 6.25" H.

ill. 1  
Above illustration of a standard frame. Bumper hides bottom frame rim.

ill. 2  
Above illustration with Baron LF331-U frame. Top frame rim graphics are clearly seen.

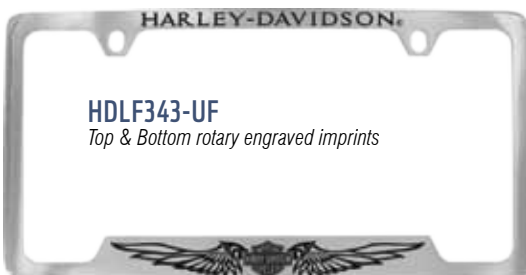

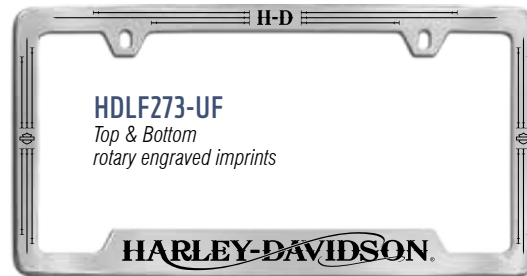

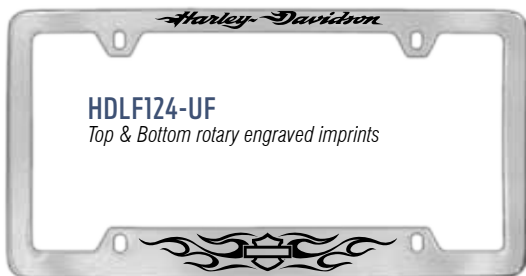

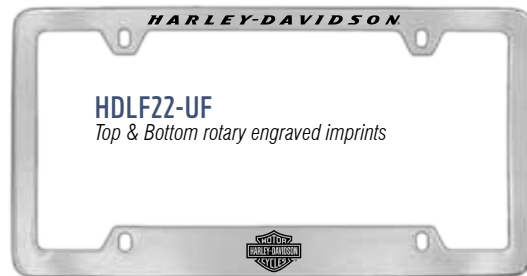

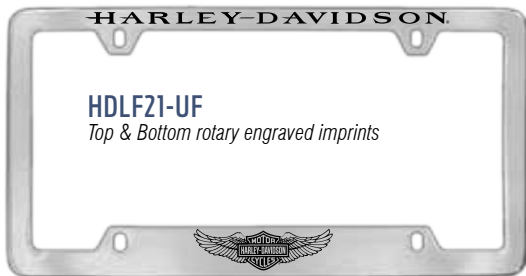

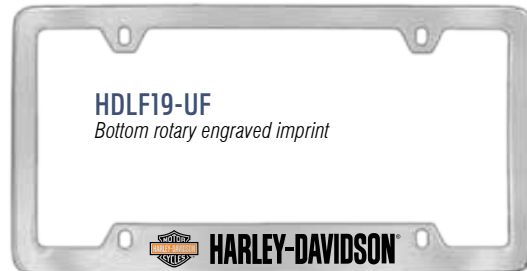

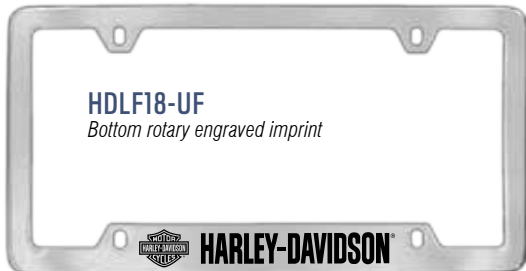

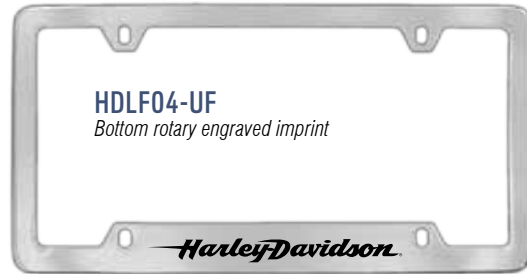

\*Wide top, 2 hole frames with top imprints available upon request for the below states.  
See page 9 for reference. AL, CO, DE, IN, NH, NM, NC, ND, SC, WY.

# UF SEMI-UNIVERSAL FIT FRAMES

4 SCREW CAPS included in all License Frame packaging

Frame Size: 12.25"W x 6.25"H

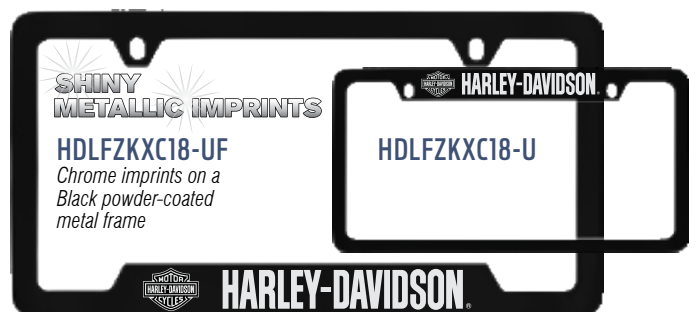

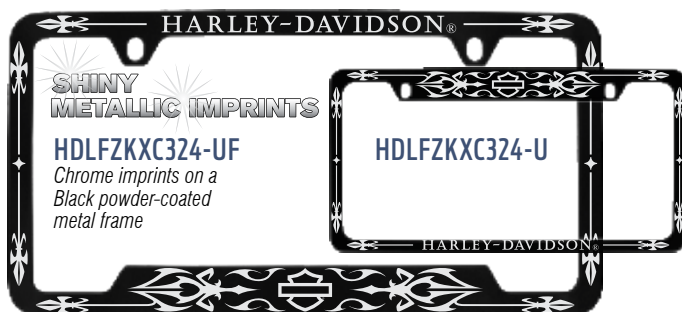

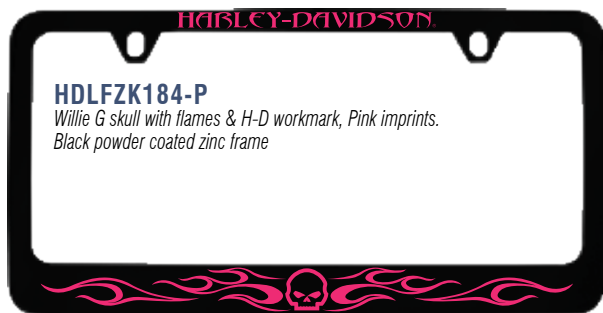

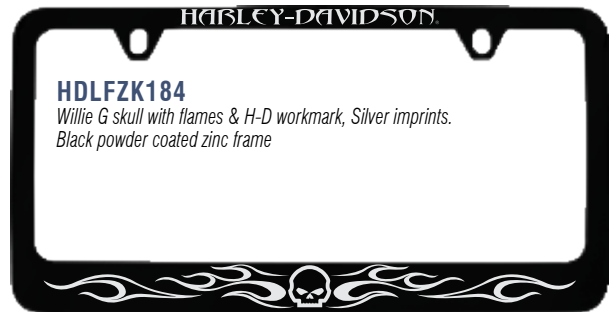

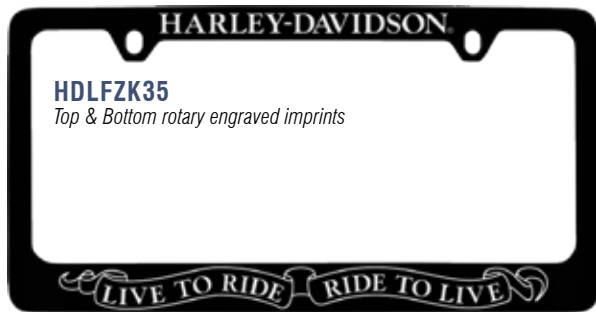

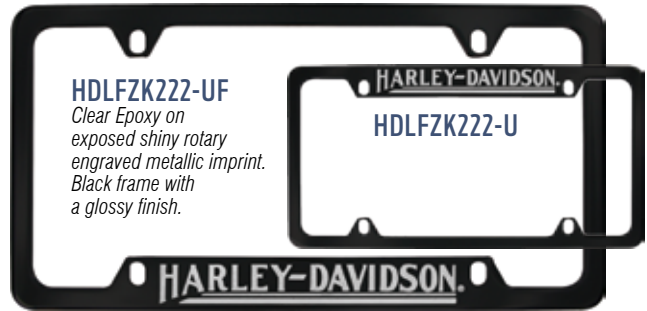

## 'UF' SEMI-UNIVERSAL FRAME SERIES CHROME PLATED UF-SERIES SEMI-UNIVERSAL FRAMES

4 SCREW CAPS included in packaging.

Frame Size: 12.25"W x 6.25"H

## CONTEMPORARY BLACK FRAMES

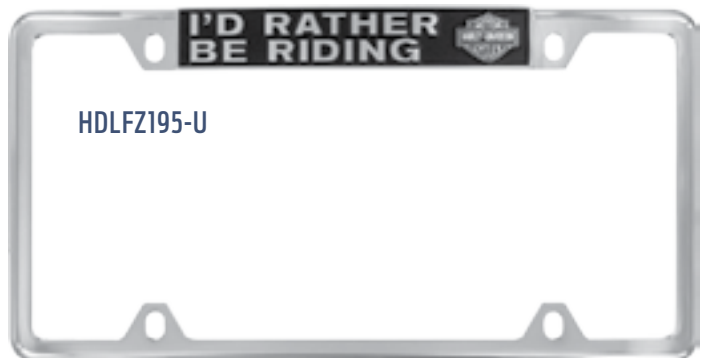

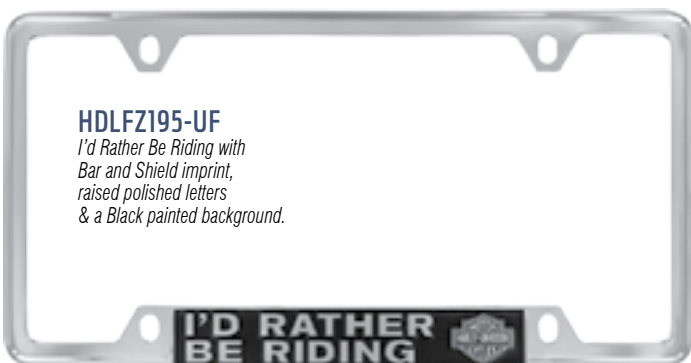

2-4 SCREW CAPS included in packaging.

## SLOGAN FRAME SERIES (LFZ) • FOR TOP & BOTTOM DECAL STATES

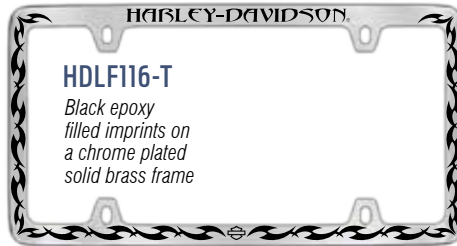

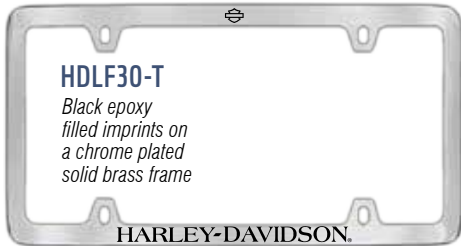

Chrome Plated Die Cast Zinc Alloy Frames with Raised Lettering. Frame Size: 12.25"W x 6.25"H

All frames are Chrome Plated Solid Brass  
 Frame Size: 12.25"W x 6.25"H

2-4 SCREW CAPS included in packaging

## T-SERIES THIN RIM 4-HOLE UNIVERSAL FRAMES

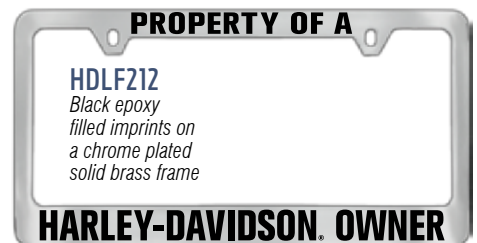

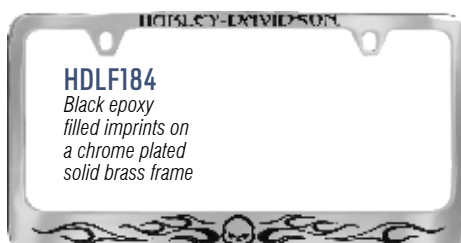

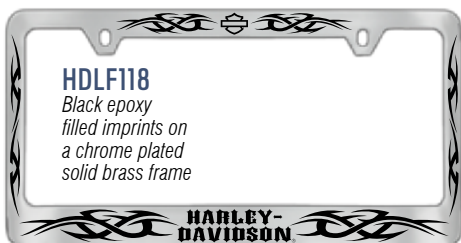

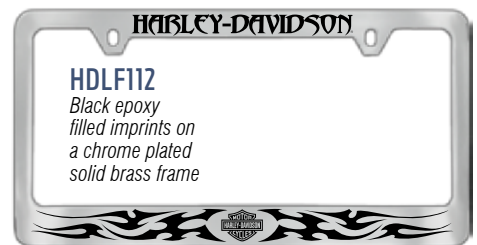

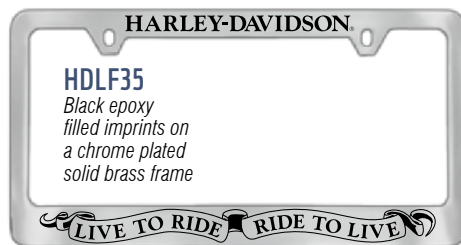

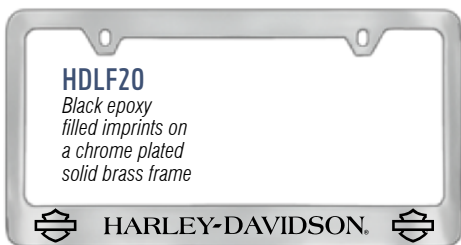

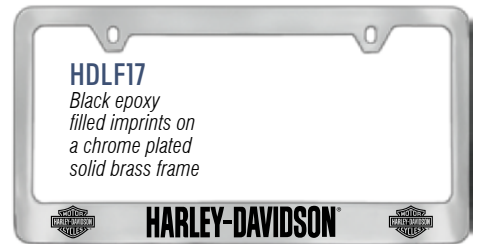

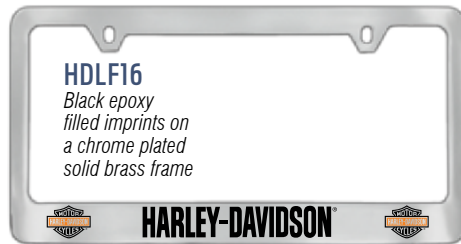

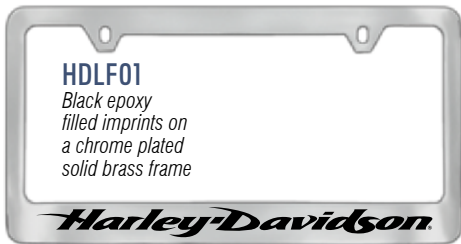

Frame model accommodates Arizona, North Carolina, Texas, New Jersey & older SUVs with frame slots in the vehicle's rear bumpers.

### TECHNICAL INFORMATION.

For top/bottom mounting, accommodates all 50 States featuring engraved imprints on four thin 13mm rims that will not obstruct any States' visibility requirements, especially Texas since 2003 singularly mandating total visibility requiring absolutely no partial plate text obstruction, differing from the other 49 states' more liberal, readable partial obstruction allowance interpretation. This based on Baron's DMV state plate research compiled data to our best knowledge, updated June 2006, but not warranted to be 100% accurate as DMV plates design and policies periodically change and States Legislation regulations may also change requiring calling DMV for information, monitoring DMV websites, and checking Highway Patrols' DMV plate readability regulations interpretations for evolving updated information. Baron will continually post any changes on our web site: [www.baronfi.com](http://www.baronfi.com).

## ENGRAVED 322/329 SERIES

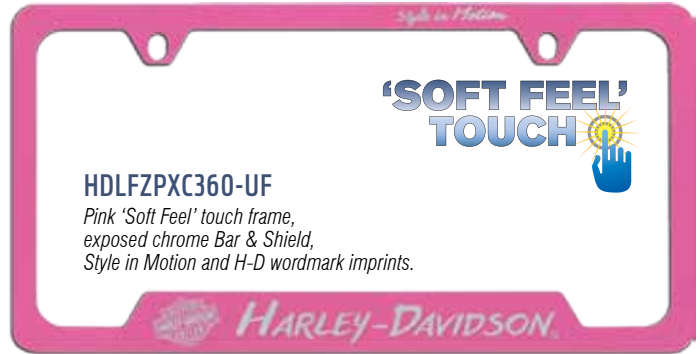

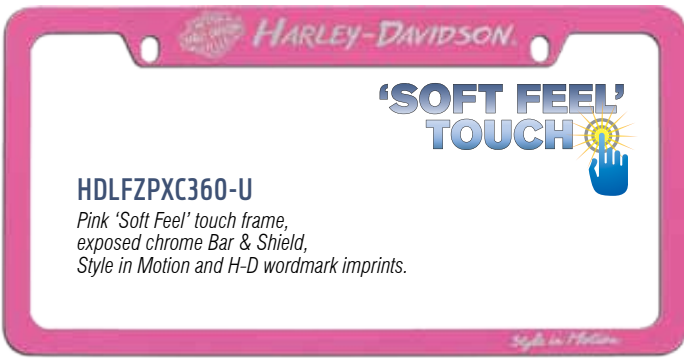

LF322 & LF329 accommodates specific State's vehicle plate visibility. This list is compiled by Baron to our best knowledge, updated June 2010, but not warranted 100% accurate as DMV plates periodically change designs and States Legislation regulations may also change requiring calling DMV for information, monitoring DMV websites, and checking Highway Patrols' DMV plate readability regulations interpretations for evolving updated information. Baron will continually post any changes on our web site: [www.baronfi.com](http://www.baronfi.com).

This Top DMV Decal only states frame is compliant with these states:  
 AK, CA, CT, HI, IL, IN, KS, MD, MA, MI, MT, NE, NV, NJ, NY, OK, PA, TN, UT, VA, WA, WY

2 SCREW CAPS included in packaging.

HDHCBE06

HDHCBE14

HDHCBE25

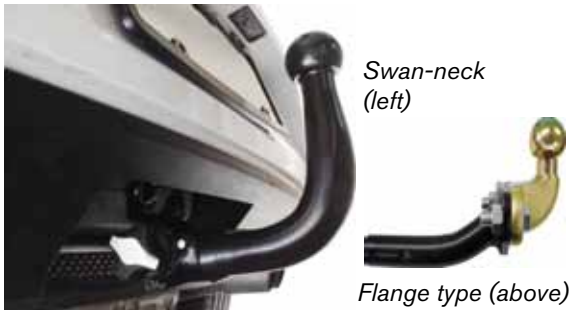

HDHCBE216

HDHCBE290

Euro Ball is 50mm in diameter

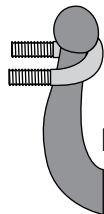

Swan-neck trailer hitch ball attached under typical European vehicle.

There are two main categories of ISO tow ball: the flange fitting and the swan-neck which has an extended neck fitting into the tow-bracket. The flange type of towbar, common in the U.K., is non-removable.

### HITCH COVER COMPONENTS FOR EUROPEAN APPLICATIONS
